ICENI
RIVA
COMPOSITE DOORS

WHAT IS RIVA?

A brand conceived from the belief in ourself.

RIVA is the suite of door products we manufacture using DoorCo and Solidor composite door slabs.

These are the same slabs we have used for years, and the same ones you are already installing.

Why the name?

We believe superior manufacturing elevates our product above all window products.

When you need the best, RIVA will be your premier thought.

The same products, transcending others by simply making them better.

RIVA COMPOSITE DOORS FABRICATED
BY ICENI FROM DOORCO AND SOLIDOR

THE REASONS

RIVA IS PERFECT FOR YOUR NEXT PROJECT

SECURE SOUNDPROOF STUNNING

The highest thermal, security and acoustic performance.

RIVA composite front doors are created from materials which ensure superior strength and durability.

Rigorously tested for use and misuse – to the point of destruction – before they are approved for supply and sale.

Considerable choice of colour and style equals a door tailored to all personalities and tastes.

THE DESIRE FOR CHOICE.

RIVA composite door products will meet – and exceed – demands of multiple applications.

Everything from heavy duty and light commercial new builds, to large-scale refurbishment projects and residential new builds can be supplied.

Confidence in our superiorly manufactured products in their performance and quality comes as standard.

THE SOLUTION IS **RIVA**.

STYLE: OAKMONT
GLASS: SKYLINE

RIVA: DOORCO

DOORCO

Style and security without the cost

The DoorCo composite door range delivers outstanding security, insulation, and kerb appeal — at a price that keeps your projects competitive.

Each door is built around a high-performance timber subframe and filled with energy-efficient PU foam, then finished with a durable, low-maintenance GRP skin in a range of popular colours and styles. It's the perfect combination of traditional looks and modern performance.

BENEFITS

- PAS 24 certified and Document Q compliant – ideal for new-builds and refurbishments
- Advanced locking systems, including high-security TS007 cylinders and TS008 letterplates
- Up to 20% more thermally efficient than solid timber doors
- Excellent heat and sound insulation
- Secure laminated glazing as standard (6.8mm P1A glass)
- Choose from grained or smooth (etched aluminium-look) finishes
- Re-glazeable cassette options for easy future updates
- Q-Marked with full manufacturing traceability.

TECHNICAL FEATURES

Minimal thermal expansion and contraction, even in extreme temperatures

All glazed units include 6.8mm P1A (EN356) security laminated glass as standard, compliant with Approved Document Q

Energy-efficient PU foam core, surrounded by a Laminated Veneer Lumber (LVL) subframe for strength and rigidity

44mm reinforced GRP skins, available in woodgrain or DoorCo's exclusive smooth/etched aluminium-effect finish

Multipoint locking systems, with high-security TS007 cylinders and hardware

Optional Secured By Design upgrade to TS008 letterplates

Optional slam-shut lock for a sleek, contemporary look*

*Note: slam-shut locks may not be suitable for all users due to their operation style.

STANDARD DOORCO COLOURS

PATINA WOODGRAINS

See pages 10-11 for premium and RAL colours

ALUMINIUM OUTER FRAME

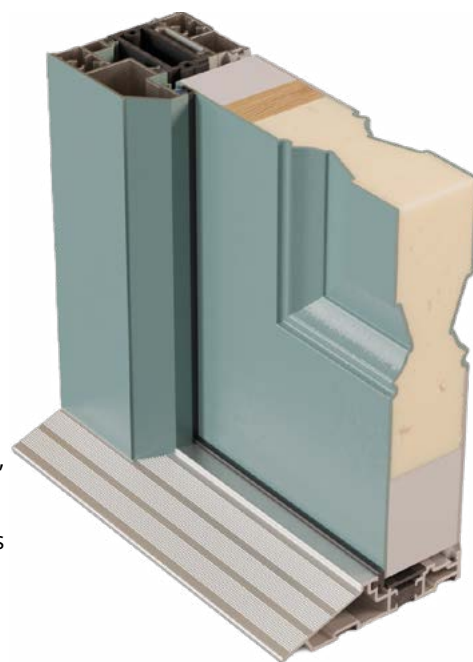

A frame to match your aluminium windows

NEW!

Sheerline's composite door outer frame enables installers to offer complete perfectly suited 'whole house' aluminium solutions.

- Available with a full range of side and top lights
- Patented corner joint gives superior aesthetics and reduces misaligned corners
- Unique Thermlock® thermal break gives class leading thermal performance.
- Standard colours: Agate Grey, Anthracite Grey, Chocolate Brown, Cream, Jet Black, Squirrel Grey, Pastel Turquoise, White.
- Also available in most RAL colours, special orders may incur a longer lead time.

ALUMINIUM OUTERFRAMES *with nearest RAL colour equivalent*

DOORCO PREMIUM COLOURS

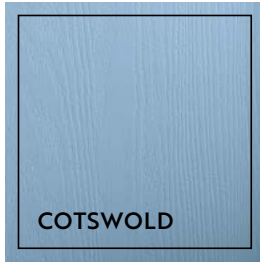

DOORCO

We have tried to replicate all colours faithfully and as accurately as possible. All paint colour systems vary from to device or in print. Only intended for use as a guide.

DOORCO PREMIUM AND RAL COLOURS

DOORCO

FiP® Technology

The pre-applied *Foam in Place* technology creates a superior seal that preventing water ingress. FLiP® achieved over 1000pa through the glazing aperture during weather testing.

THE FLiP® CASSETTE

DoorCo's exclusive glazing cassette system

STANDARD

A moulded design and a woodgrain finish to suit a more **Traditional** door design.

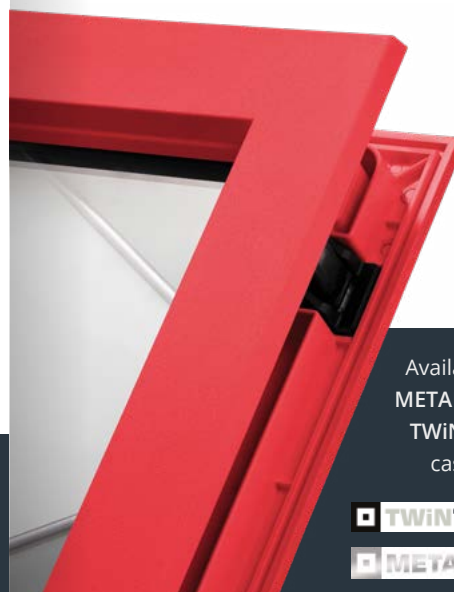

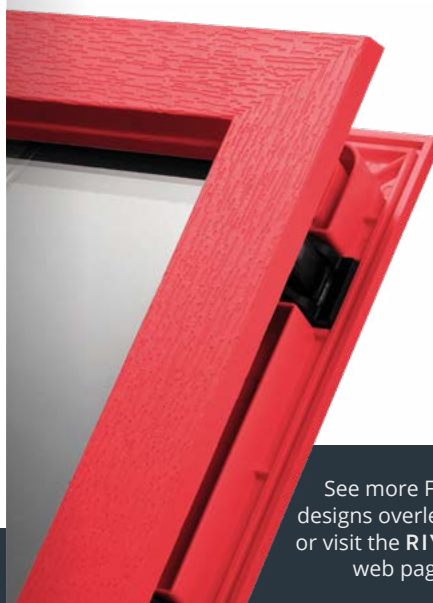

FLAT GRAINED

Woodgrain finish with a modern squared-off flat profile that compliments a **contemporary Flush** or **designer Monza II** door.

FLAT STIPPLE

A squared-off flat profile and smooth stippled finish that matches **Links**, DoorCo's aluminium-effect door.

Used for **METALLiC** and **TWINTONE** cassettes (see opposite).

See more FLiP designs overleaf or visit the **RIVA** web pages

Available as **METALLiC** or **TWINTONE** cassettes

METALLIC CASSETTES

A METALLiC finish is available across the FLiP Flat Stipple cassette range

Using the latest paint technology, METALLiC enhances the FLiP cassette, for the ultimate Links designer door. Complete the look with the METALLiC glass option.

Only available on these slabs:

RIVA: SOLIDOR

48mm timber core composite doors

The Solidor collection offers an outstanding range of solid timber core composite doors.

With an overall thickness of 48mm, these doors are almost 10% thicker than most alternatives, adding to overall security.

Wide range of styles and colour options available to complete the look of any property.

With a highly durable plastic door skin inside and out and finished with a woodgrain effect means never having to paint or varnish your door.

FEATURES

- **48mm solid timber core** that is thermally efficient and extremely secure
- **Hidden edge banding** so the front of your door remains a solid, glorious slab of colour.
- **'Through' colour ABS skins** made from the same durable plastic as Lego®. Also, because the entire skin is made of a solid colour, any scratches are practically hidden.
- **Lead-free, 5 chamber profile** frame which uses 100% recycled reinforcing. Generally, the more chambers that a profile uses, the stronger and more thermally efficient they are.
- **Woodgrain effect skin** that gives all of the aesthetics of timber, but without the time consuming maintenance.

HAVE YOU TRIED THE ONLINE DOOR DESIGNER?

Specify a composite door to your exact requirements and see it on-screen.

Select slab type, colour, glass, threshold, outerframe, letterbox, knockers and more!
